Paul,

Making you aware of a possible city council action by our council to issue a termination notice to three of our sister cities. This will be considered at the Dec. 3 meeting.

Mark Simms
Utilities Director
City of Sioux City

Tom and Ben,

The 3 attached letters are cc'd to you. Our City Council will be considering the termination of the existing Sewage Treatment Agreements with these three cities on the date shown in the letter. These letters will be mailed late today to each city so they may not arrive until Monday of next week.

I will send a pdf by email to their regulatory agencies. When final action is taken we will generate a new letter termination the service (4 year termination period). That letter can be sent to any other agency you feel needs to be made aware.

The file name I used is not fully accurate- as this is a notice that our council will consider termination.

Thank you,

Mark Simms
